

**MRC Festival of
Medical Research**
is an annual series of
events where MRC-funded
researchers showcase and
discuss their work through
exciting public events
and activities.

17th - 25th June 2017

#MRCFestival • [mrc.ac.uk/mrcfestival](https://www.mrc.ac.uk/mrcfestival)

CAMBRIDGE

Free admission to all events

The MRC is the UK publicly funded organisation that invests in medical research to improve health.
Our research has resulted in life-changing discoveries for over 100 years.
For further information see - <https://www.mrc.ac.uk/>

MRC Laboratory of Molecular Biology Open Day

Saturday 17th June
10.00am – 4.00pm

MRC Laboratory of Molecular Biology,
Francis Crick Avenue, Cambridge Biomedical
Campus, CB2 0QH

Exciting Open Day with something for everyone! Try family-friendly hands-on activities, meet LMB scientists, learn about our cutting-edge research and see our world-class laboratories and facilities. Refreshments and free parking will be available.

Contact: public.engagement@mrc-lmb.cam.ac.uk

MRC Cancer Unit Schools' Open Day

Tuesday 20th June
1.00pm – 5.30pm
(booking required)

MRC Cancer Unit, Cambridge Biomedical
Campus, CB2 0XZ

Open Day for sixth form students, with tours of the MRC Cancer Unit labs, talks from the scientists, hands-on activities and careers sessions.

Details: www.mrc-cu.cam.ac.uk/
Contact: ac288@mrc-cu.cam.ac.uk

MRC Mitochondrial Biology Unit Open Day

Wednesday 21st June
9.00am – 4.00pm

*(admission will be at two-hourly intervals:
9.00am, 11.00am, 2.00pm, 4.00pm)*

MRC Mitochondrial Biology Unit, Wellcome
Trust/MRC Building, Cambridge Biomedical
Campus, CB2 0XY

Interactive Open Day including informative talks, scientific demonstrations, games, puzzles, movies and 'meet the scientists' sessions.

Details: <http://www.mrc-mbu.cam.ac.uk/event/2764/mbu-open-day-21-june-2017>
Contact: pap@mrc-mbu.cam.ac.uk

MRC Epidemiology Unit

Saturday 24th June

Market Square Cambridge
(other dates and locations tbc)

Using the 'Where's Wally' landscape as inspiration, CEDAR researcher Dr Tarra Penney and Cambridge-based illustrator Aurora Cacciapuoti have created cartoons to explore how food outlets can influence our food choices. Through our cartoons, navigate a dense and confusing maze of shops, restaurants and cafes, searching for healthy food, while also keeping an eye out for any hidden scientists!

MRC Metabolic Diseases Unit events for medical staff

Date & time tbc

MRC Metabolic Diseases Unit, Institute of
Metabolic Science, Cambridge CB2 0QQ

NHS medical staff are invited to visit the Unit and to find out more about research that underpins practice related to metabolic disease. A series of short films featuring doctors and nurses who work with us will also be published during the festival week and will explore how direct experience of research has helped their practice.
